This modern crowd funding model is generally based on three types of actions: the project initiator who proposes the idea or project to be funded, individuals or groups who support the idea, and a moderating organization (the "platform") that brings the parties together to launch the idea.

Conti..

Partnering with Market Synergy, corporate accounts and professional traders can take advantage of the fastest trading speeds through institutional-grade connectivity and co-location services with direct access to our digital asset gateway. Many cryptocurrencies are decentralized networks based on blockchain technology—a distributed ledger enforced by a disparate network of computers. A defining feature of cryptocurrencies is that they are generally not issued by any central authority, rendering them theoretically immune to government interference or manipulation.
